If you have Bright's Disease or Diabetes, I want you to try Allouez Water

Bottled and sealed at the Allouez Magnesia Springs of Wisconsin. Always delivered in original packages. No charge for delivery in New York or Brooklyn

IT is a natural Magnesia Spring Water, bottled as it flows from the Springs at Green Bay, Wisconsin. I know, personally, of scores of people who have regained health and strength from drinking Allouez (pronounced "Al-o-way") Water after they had suffered for years with diseased kidneys. Those who know the terrors of Bright's Disease or Diabetes will realize the joy that would result in relief from these diseases which slowly but certainly sap life away unless a successful remedy is found and used.

Medicines containing alcohol should never be used for kidney diseases, as all authorities agree that nothing is more irritating to the kidneys than alcohol. In fact, it is itself a frequent cause of kidney disorder. As Allouez Water is nothing but pure, natural water, containing only natural curative properties, combined by Nature herself, it is the ideal remedy to use with perfect safety and best results.

I am anxious to send a record of cures and other interesting Allouez literature to all who will supply an address. One does not need to be ill to appreciate Allouez Water. It is a splendid table water and its use will positively act as the "ounce of prevention" that is always so much better than the "pound of cure." Your name and address, or possibly that of a suffering friend, by postal, letter or telephone will bring the literature promptly.

ADVANTAGES OF OUR SYSTEM

Perpetual

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account

Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts

Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error

Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled

As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity

A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy

In every case it costs far less in the long run — less in material, less in time, less in labor.

OVER 23,000 BOOKKEEPERS NOW USING OUR LEDGERS TESTIFY TO THESE POINTS OF SUPERIORITY

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department

Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks.

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.

Billing and Charging System.

Adapted to most any business — an invoice and journal entry being made at one writing.
Can be used either for typewriter or hand writing; produces an exact copy of every invoice.

Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports.

For the Shipping Department

Safety Manifold Shipping and City Delivery Receipts and Books.

By the use of which errors in shipment are prevented and all possibility of loss through miscarriage eliminated

For the Accounting Department

In this department we offer the greatest labor-saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers — General Sales and Creditors.

Perpetual Trial Balance and Proof Books, Journal, Cash and Other Auxiliary Books

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish

Bills Payable and Receivable Forms, Voucher Systems, Check Registers, Pocket Ledgers and Collection Reports.

Monthly Statement System.

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System.

By which any number of clerks can work thereon at one time without the necessity of rewriting.

For the Manufacturing Department

We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties, and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

For Banks and Trust Companies

Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks, and have been universally adopted for

General Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books.

Our Daily Balance Book offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

"There is probably no other public body of citizens filling such an important place as does this Association."
—*New York Herald.*

THE MANUFACTURERS' ASSOCIATION OF NEW YORK

Manufacturers' Building, 198 Montague St., BROOKLYN, N. Y.

ORGANIZED AND INCORPORATED 1894

For the purpose of promoting civic pride and protecting the interests of Manufacturers, Merchants and Business Men

If you are not a member of this Association, you should be. Send for a Membership Application Blank.

"The Manufacturers' Association has had an honorable career of civic usefulness. For nearly ten years it has been doing things and it means to do much more.

"As has been well said in summarizing the character and scope of this successful association, 'it may be considered a public sentinel. The best interests of the public are conserved through such an organization, which vigilantly scrutinizes the acts of public officials and legislators affecting the welfare of the manufacturers, the commercial world, and practically our entire body of citizens. Its influence in studying the great public needs and advocating measures for their relief has been an active factor in securing advantageous public improvements which would undoubtedly either have been retarded for years or perhaps never have been undertaken.'" —*Brooklyn Eagle.*
